

Building banner HPI

Technical specifications

Format	275 x 565 cm, portrait orientation 12 cm hem top and bottom (measured flat), cut at the sides
Material	Digital print on mesh tarpaulin, wind permeable Grammage: max. 350 g/m2, Flame retardant in compliance with DIN 4102 B1, M1
Printing	One-sided
Design constraints	In view of traffic safety, the subject matter must be easily and quickly understood. Text should be kept to a minimum – as a guideline, 7 words in a large, legible font. An internet ad- dress and a logo of a much smaller size may also be displayed.

Hem

Finish	The hem must be sewn, not just glued.
